

The Enzo Parkett brand has always been synonymous with genuine wood since 1967.

Originally based in Istanbul, the company has started off producing solid parquet and continues its journey manufacturing laminated parquet -the most preferable product in Europe- with added knowledge and experience although it has never given up on wood.

In order to maintain its leading position in the sector and to be a lasting brand, Enzo Parkett has always aimed at quality and customer satisfaction as its top priorities while making progress in the light of technological advancements and innovations as well as developments in the global market.

The brand manufactures its world-standard products in factories that encompass 105m² of outdoor and 45 m² of indoor areas. With a production volume of 2.000.000 m² as Turkey's first and largest laminated parquet manufacturer, Enzo Parkett has moved on with no compromise on its goals and quality whatsoever since its establishment.

Enjoying an ever-expanding network of national branches and its export volume which forms a 30% of its whole production, the brand has become to be a sought-after manufacturer both in Turkey and in the international market.
